	25X1A East Cormany FDD Abstract Freduction of T=2 Type Television Sets in Sachsenwark, 25X1A
25X1A	
	Amer 1 is a plan for the 1952 production of television receivers at the Sachsenwerk, Radeberg plant indicating a total of 10,600 planned repairs and rechecks of old receivers, and a planned production of 45,000 new receivers. Annex 2 is a letter by D. S. Kheyfts / sie /, Chief Designer of the T-2 Television Receiver / Analyst's note: presumably identical with D. Kheyfets, countly of article "The Television Set T-2 Lemingrad", in Radio No 9, 1951 / giving some comments on observations made at the Flant No 616 concerning checks of T-2 sets produced by the SAC"Kabel" and shipped to the USSR. In the conclusions it points out that defects were due to careless contamently, lack of careful checks, and poor quality of parts. It stresses the imadmissibility of continued shipments to the USSR of sets containing such defects. Immediate what steps to improve the production and checking methods at the SAC "Kabel" plant are held importative.
	Annex 3 contains data on the work performed by the Warranty Group on the T-2 sets delivered by the SAG "Kabel", as compiled by the Directorate of Workshops of the leningrad TV Network, for the period 1 Sept to 15 Nov 1951. The main troubles, in order of frequency, encountered were (a) tube replacement (b) poor contacts, and (c) replacements of fixed capacitors.
	Annexes A - 10 are comments by Fomin, General Manager of the SAG "Kebel" concerning reports of defects and measures taken to correct same.
	Amex 11 is a plan, dated 29 Dec 1951 and endorsed by the General Mgr of the SAC "Kabel" Division, cutlining organizational and technical measures for the improvement of the quality of the T-2 sets produced by the Sachsenwark plant. It fixes responsibilities and deadlines. Return to CIA Library
25X1A	Amen 12 is a letter by the SAG"Kabel" HF Plant in Berlin-Oberschoenwolde, to the Ceneral Mgr of the SAG "Kabel", dated 18 Jan 1952, concerning its tubes and kinescopes. It disclaims responsibility for defects in I-2 sets produced by the Sachsenwerk and containing "HF" tubes. Tube defects located foellowing receiver production are held to be esused by rough handling in transit and inexpert installation at the Sachsenwerk plant. Direct responsibility for the quality of its tubes can be assumed only for direct shipments to the USSR.
